

The University of Washington is partnering with the Chehalis School District to provide a **four day summer camp** focusing on engineering and medical science. The camp will be held **August 15-18 from 9 a.m. - 3 p.m.** and is **open to ALL high school students entering grades 9 thru 12.** This one-of-a-kind camp offers four days in Chehalis at W.F. West High School.

Join us this summer and **learn from experts in the fields** of both **engineering and medicine** as they share some of the most cutting-edge technologies.

The cost for this extraordinary experience is \$25.

There are scholarships available, if needed, when registering online.

AUGUST 15-18 | 9 AM - 3 PM

SECTION I: UW ENGINEERING

Students will learn about the **Engineering Design Process** and its many applications by completing a hands-on project designed to **spark creativity and engage students of all levels.** Supported by current undergraduate UW engineering students and staff, students will work together in small groups to tackle an engineering challenge and learn how their **interests and skills** can be applied to a wide range of engineering disciplines.

CHEHALIS STEM

SECTION II: UW MEDICINE

UW Medicine Students will engage with **medical doctors and scientists** from the Institute for Stem Cell and Regenerative Medicine (ISCRM) who are working to unlock the power of the human body to heal itself. With **hands-on activities**, students will explore the **physiology and disease of human organs and powerful approaches in biotechnology.**
